Comprehensive mobile and forms development

Nintex Forms

Quick and easy forms designer

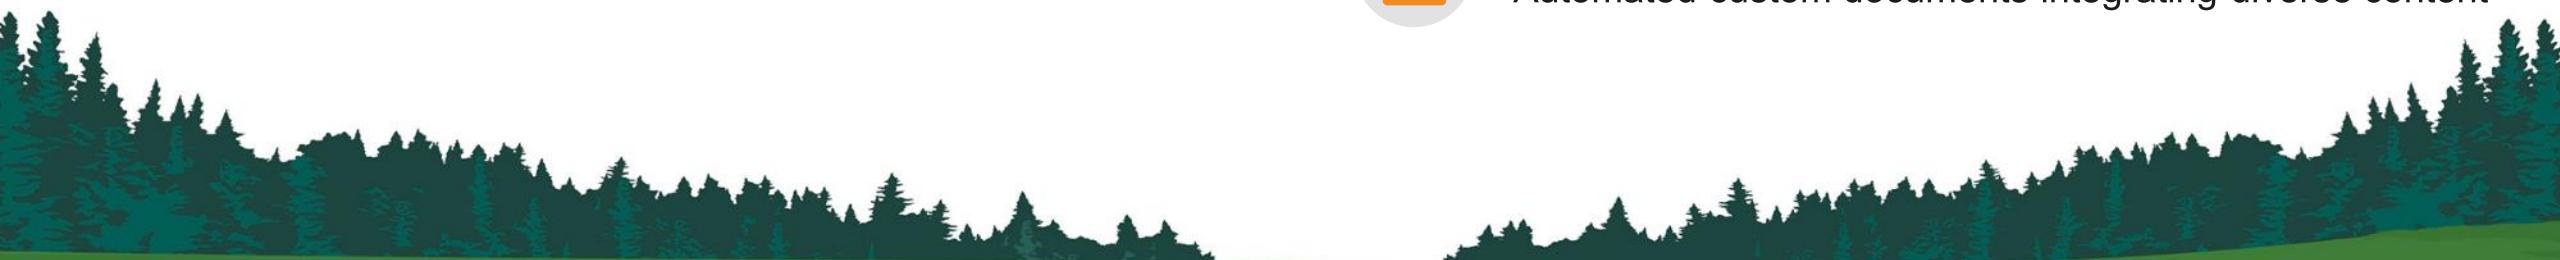

Nintex Xtensions

Build your own connection using OpenAPI

Nintex Document Generation

Automated custom documents integrating diverse content

Current Challenges

Multiple Teams

Disconnected Systems

Manual Processes

The Contract

Manual contract process slows down ability to get to cash and grow the business

Sales Teams

- Administrative tasks drain selling time

Legal Teams

- Manual contract negotiations expose compliance risk
- Doesn't support business growth

Procurement Teams

- Multiple systems of record & silos

Nintex Workflow for Salesforce
enables contract process automation
for everyone across all systems of
record

The Demo Players

Admin / Designer

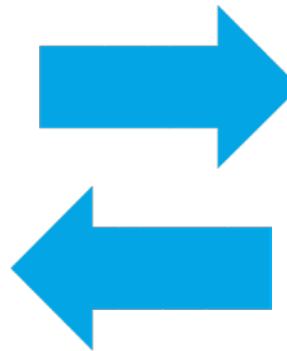

Sales Person

Customer

Legal

Nintex for Salesforce

DocuSign

Demo Time

2 Weeks

lots of code
extremely fragile
hard to maintain

7 hours

no code

resilient to SFDC updates

zero deployment maintenance

Thank You

NINTEX
